Department of Planning and Development
D. M. Sugimura, Director

**CITY OF SEATTLE
ANALYSIS AND DECISION OF THE DIRECTOR
OF THE DEPARTMENT OF PLANNING AND DEVELOPMENT**

Application Number: 2400124
Applicant Name : Brittani Ard
Address of Proposal: 2319 15th Avenue South

SUMMARY OF PROPOSED ACTION

Master Use Permit to subdivide one parcel of land into four unit lots. This subdivision of property is only for the purpose of allowing sale or lease of the unit lots. Development standards will be applied to the original parcel and not to each of the new unit lots. The construction of a 3-unit townhouses structure has been approved under project #2306724. The existing single-family residence is to remain.

The following approval is required:

Short Subdivision - To create four unit lots.
(Seattle Municipal Code Chapter 23.24)

SEPA DETERMINATION: ☒ Exempt ☐ DNS ☐ MDNS ☐ EIS
☐ DNS with conditions
☐ DNS involving non-exempt grading, or demolition, or another agency with jurisdiction.

BACKGROUND DATA

Site Description

The proposal site is approximately 7200 square feet and is located in a Multi-Family Lowrise One (L-1) zone, with a Beacon Hill Overlay, on 15th Avenue South. 15th Avenue South is a two-lane paved street with sidewalks, curbs, and gutters on both sides.

The lot has approximately 60-feet of street frontage along 15th Avenue South. The site also abuts a 16-foot wide improved alley, which is used for vehicular access. Site vegetation includes grass, shrubs and trees.

Area Development

Zoning in the vicinity is mixed between multi-family, single-family and neighborhood commercial. To the north and east of the block is Multi-family zoning (L-1), to the west is Single-family (SF5000) zoning and to the south is Neighborhood Commercial Two (NC2/40' and NC2/R-40'). The surrounding area is characterized largely by with single-family and multi-family uses with some small commercial uses.

Proposal Description

The applicant proposes to subdivide one parcel of land into four unit lots. Proposed unit lot sizes are: A) 1,282 square feet, B) 1,014 square feet, C) 1,282 square feet and D) 3,622 square feet. Parking for the 3-unit townhouse lots will be in under-structure garages. Parking for the detached single family residence will be provided on grade adjacent to the north side of the house. Required vehicle access for the 4-unit lots is proposed from the adjacent 16-foot wide alley and a shared ingress, egress & utility easement. A 4-foot Pedestrian easement is provided across Unit Lot A for the benefit of Unit Lot D.

Public Comments

The public comment period for the proposed project ended on March 17, 2004 and no comments were received.

ANALYSIS - SHORT SUBDIVISION

Pursuant to SMC 23.24.040, no short subdivision shall be approved unless all of the following facts and conditions are found to exist. The findings which follow are based upon information provided by the applicant; review of access, drainage and zoning within the Department of Planning and Development (DPD), review from Seattle Public Utilities, Seattle Fire Department and Seattle City Light, and review by the Land Use Planner.

1. *Conformance to the applicable Land Use Code provisions;*

The existing parent lot subject to this subdivision does not conform to all development standards of the L-1 zone, but is recognized as an existing legal nonconformity. The unit lots proposed by this subdivision conform to the standards for unit lot subdivisions (SMC 23.24.045) and other code provisions applicable to unit lot subdivisions. Any new development must conform to code requirements for the parent lot at the time of application.

2. *Adequacy of access for vehicles, utilities and fire protection as provided in Section 23.53.005;*

Vehicular access to each of the parcels will be from the adjacent 16-foot wide alley and shared ingress, egress and utility access easement. Parking is proposed within the structure for Unit Lots A, B & C and a surface parking space is proposed for Unit Lot D, meeting parking space standards 23.54.030 of the Seattle Land Use and Zoning Code. A 4-foot Pedestrian access easement is provided across Unit Lot A for the benefit of Unit Lot D. The existing single car garage on Unit Lot D is to be removed.

In order to insure that the use and maintenance responsibilities associated with the common areas are clear, the applicant/responsible party will be required to record an easement maintenance agreement with the final short plat.

The Seattle Fire Department has reviewed the proposed lot configuration with regard to fire protection and emergency vehicle access and has no objection. No improvements were requested by the Fire Department.

Seattle City Light requires an overhead/underground easement as described in Exhibit "A" .

As conditioned, this short plat provides for adequate access for vehicles, utilities, and fire protection.

3. *Adequacy of water supply, sanitary sewage disposal, and drainage;*

Sanitary Sewer: Sanitary sewer is available in 15th Avenue South. A public storm drain is available in South College Street.

Drainage: A standard drainage control plan will be required prior to issuance of future building permits. Drainage will be discharged through the curb onto 15th Avenue South.

Seattle Public Utilities reviewed the unit lot subdivision application and approved a Water Availability Certificate, No. 04-0143 on February 13th, 2004. All conditions on the certificate must be met prior to receiving water service.

4. *Whether the public use and interests are served by permitting the proposed division of land;*

The proposed unit lot subdivision meets the minimum provisions of the Seattle Land Use Code. The proposal meets all applicable criteria for approval of a short plat as discussed in this analysis and decision. The public use and interests are served by permitting the proposed division of land.

5. *Conformance to the applicable provisions of SMC Section 25.09.240, short subdivision and subdivisions in environmentally critical areas;*

The site is not mapped as an Environmentally Critical Area.

6. *Is designed to maximize the retention of existing trees;*

Not applicable, as the development of the subject site is permitted by approval of the associated building permit. No tree, are expected to be removed as a result of this short subdivision.

7. *Conformance to the provisions of Section 23.24.045, Unit lot subdivisions, when the short subdivision is for the purpose of creating separate lots of record for the construction and/or transfer of title of townhouses, cottage housing, clustered housing, or single-family housing.*

Section 23.24.045 of the Seattle Municipal Code provides that under certain circumstances some types of parcels may be created that do not individually meet the zoning requirements for lot size, setbacks, density, and structure width and depth. These are called unit lot subdivisions and may be permitted as long as the development as a whole meets development standards.

However, as a result of this subdivision, development on the individual lots may be non-conforming. To assure that future owners have constructive notice that additional development may be limited due to non-conformities; the following statement shall be required to be included as a note on the final short subdivision: "The unit lots shown on this site are not separate

buildable lots. Additional development on any individual unit lot in this subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code, Chapter 23 of the Seattle Municipal Code.”

DECISION - SHORT SUBDIVISION

The proposed Unit Lot Subdivision is **CONDITIONALLY GRANTED.**

CONDITIONS - SHORT SUBDIVISION

Prior to Recording

The owner(s) and responsible party(s) shall:

1. Provide final recording forms and fees. Have the final recording documents prepared by or under the supervision of a Washington State licensed land surveyor. Each lot, parcel or tract created by the short subdivision shall be surveyed in the field and all property corners set in conformance with appropriate state statute. The property corners set shall be identified on the plat and encroachments such as side yard easements, fences or structures shall be shown, as well as all structures and distances from them to the proposed property lines. All existing structures, principal and accessory, shall be shown on the face of the plat and their distances to the proposed property lines dimensioned. A licensed surveyor shall stamp the short plat drawings.
2. Insert the following on the face of the plat: “The unit lots shown on this site are not separate buildable lots. Additional development on any individual unit lot in this subdivision may be limited as a result of the application of development standards to the parent lot pursuant to applicable provisions of the Seattle Land Use Code, Chapter 23 of the Seattle Municipal Code.”
3. Provide a joint maintenance and responsibility agreement for maintenance and use of shared walls on property lines and all ingress, egress and utility easements.
4. A street address sign, meeting the standards of the Seattle Building Code, shall be erected to show addresses from 15th Avenue South, either by easement or covenant, for all individual units.
5. Provide the following statement on the face of the plat to reference the Overhead and Underground easement, Exhibit “A”, required by Seattle City Light: “An easement is granted to Seattle City Light as shown on page _____.
